Boothindustries

Environmental Policy

As a leading specialist engineering organisation, Booth Industries is committed to discharging its responsibilities towards environmental management. Booth Industries recognises how effective management can ensure the identification of all environmental aspects associated with our activities and the mitigation of potential impacts on the environment.

Booth Industries intends to effectively manage and continually improve our environmental performance through:

- Managing our activities in such a way to prevent pollution, minimise emissions and that reduces environmental impact to a practicable minimum;

- Complying with applicable legislation, consent and codes issued at European, National and Local levels, other relevant compliance obligations and adopt a proactive approach to future requirements;

- Carrying out environmental audits of all aspects of the Company's undertakings to ensure effective implementation of the environmental policy; and

- Ensuring this policy is understood, implemented and maintained at all levels in the company.

The senior management team of Booth Industries are fully committed to this policy. They will ensure that all activities are undertaken in an environmentally responsible manner. Systems will be implemented to review performance against this policy.
